Conrad,

We welcome the opportunity to host three meetings with you as requested, and commit to make them happen at a mutually convenient time. I want to be clear that we are not yet committing to craft a policy on used electronics recycling, although that is certainly a possibility coming out of the last meeting.

On the Amazon side, you will meet with Ben Hartman, Vice President and Category Lead for Consumer Electronics, relevant members of his team, and me.

We look forward to collaborating with, and learning from As You Sow.

Regards,

Craig Berman
Vice President, Global Communications
